

May 3, 2016

Dear Healthcare Professional,

As you are aware, Moda Health has partnered with Magellan Rx Management (Magellan Rx) to assist you in medical pharmacy management through the provider administered injectable drug program. We are committed to providing our members with access to high-quality healthcare. To ensure our members receive quality and affordability care, we will implement updates to the review and approval processes of certain injectable medications.

Effective July 1, 2016, 17 new medications will be added to the prior authorization list of medications currently in the Magellan Rx program.

Magellan Rx will review your prior authorization requests for the following specialty injectable medications, along with other specialty medications that are already part of the program when administered in:

- an outpatient facility
- a patient's home
- a physician's office

Brand name	Generic name	HCPCS code
Beleodaq	Belinostat	J9032
Blincyto	Blinatumomab	J9039
CEREZYME	Imiglucerase	J1786
ELAPRASE	Idursulfase	J1743
Elelyso	Taliglucerase Alfa	J3060
FABRAZYME	Agalsidase Beta	J0180
HyQvia	Subcutaneous Immune Globulin	J1575
IXEMPRA	Ixabepilone	J9207
Lemtrada	Alemtuzumab	J0202
NPLATE	Romiplostim	J2796
Reclast	Zoledronic Acid	J3489
Ruconest	C1 Esterase Inhibitor [recombinant]	J0596
Sylvant	Siltuximab	J2860
Vimizim	Elosulfase alfa	J3590/J1322
XOLAIR	Omalizumab	J2357
Zarxio	filgrastim-sndz	Q5101
Zometa	Zoledronic Acid	J3489

Completing prior authorization requests through Magellan Rx will help expedite claims processing and doesn't require you to submit medical records. If you don't obtain a prior authorization, your claims may be delayed or denied until we receive the information needed to establish medical necessity.
