Better benefits and better care — **choose a PCP 360**

Better care and benefits are already built into your Moda Health plan. All you need to do to access them is *choose and use* a PCP 360. Doing so is easy. We'll show you how, but first let's explain what a PCP 360 is.

What is a PCP 360?

A PCP 360 is a primary care provider who is part of a facility that has been certified by the Oregon Patient-Centered Primary Care Program or other similar programs. This means that a PCP 360 has to meet certain quality standards.

Having your own primary care provider is good, but having a PCP 360 is even better.

With a PCP 360, you get:

- 24/7 medical advice by phone
- Hospital coordination
- Ongoing health education
- Wellness support

Ultimately, your PCP 360 will be accountable for delivering high-quality care that is centered on you, coordinating with any other care providers you may need, on your behalf.

You and each of your covered family members can choose a PCP 360. You can have the same one or a different one — it's up to each of you.
